"Don't Look Back"

Visit "[Don't Look Back](#)" on MotoLyrics.com

Close my eyes - see your reflection
in my life - you always are
now I know my true direction
cause I see your shining star

Iâll never fall in love again
you are the one I need
eye to eye and face to face

hold me-
you donât have to go this way
hold me-
donât look back

been so lang - to get the reception
of your smile - i keep in view

Iâll never fall in love again
you are the one i need
eye to eye and face to face

hold me-
you donât have to go this way
hold me-
donât look back

all your love and sweet affection
makes me feel so close to you
