Willingly they barter progress for distraction, unified by  
their nebulous agenda  
That with no need for sight will outgrow it's eyes  
Over time growing obsolete, devolving at great  
speeds; and becoming what it feared most:  
amorphous black energy  
Cattle  
Batteries  
A wavelength lacking static, concepts are incomplete  
A mockery of progress fulfils the prophecies  
Retarded  
The debasement of rights: you've created your lack of  
discourse tenfold  
The ensnarement of hands, through the numbing of  
the mind  
The undoing of man! Behold!  
Get USELESS  
Act HELPLESS  
Play VICTIM to the system  
You're USELESS  
You're HOPELESS  
NEBULOUS  
Nothing begets nothingness; you know that you've  
asked for this  
Numbing in extremity, and invocation to the end  
Battle Apathy  
Those with no need for thought have outgrown their  
minds  
Over time growing obsolete, devolving at great speeds  
and becoming what it feared most: amorphous black  
energy  
You asked for it
