Maggots writhing beneath the trembling ground of the  
New Vatican  
The Holy Heartland  
Moral inversion through practices of god  
The Holy Heartland  
Christ opens his mouth as worms fall from the sky  
Christ opens his heart as worms fall from the sky  
Vermin enthroned where sleeping giants lie  
The golden idols are convulsing  
Mahdi defiles the American soil  
Orgiastic polygamy  
Moral inversion through practices of god  
Inbred and ebullient with open arms to disaster  
Lo he will rise, and murder, murder us for our sins.  
He will rise.  
He will rise.
