I've been growin' my cactus since birth and I'll tell you  
that  
It's even more fun to have than a Chia Pet  
Fun's just begun, when I take it off the shelf  
I play with it with friends or when I'm by myself  
Flourishing nightly by the light of the full moon  
It always stands erect when in full bloom  
More powerful than the starship Enterprise  
Took it to a show and my cactus won a prize  
All attempts to control it have been foiled  
I plant my cactus and it gets soiled  
Girls are impressed when they happen to come upon it  
At night when I go to work I put a cover on it

I got a cat and the pussy likes to play with it  
If I keep up the good work she'll stay with it  
I grow it for keeps but I know when I'm licked  
One girl wasn't careful when she touched it and she got  
pricked  
Beware of my cactus when I turn it loose  
But I know you're gonna love my cactus juice  
I've seen cactuses that have seen better days  
Take good care and it grows a little every day  
Even if you don't like me I would guess that  
When you see my cactus you're gonna be impressed  
I know it can suit your needs, can't it?  
Doesn't matter where it's always ready to be planted  
My cactus is special so I wrote a poem  
It's in a class by itself so it hangs alone  
If you don't like the way I'm goin' at this  
You can kick my ass, but please don't kick my cactus
