(parody of "Pop Goes The Weasel" by 3rd Bass)

Pop goes the pop goes the oozin' of the pimple  
The scar'll leave and artificial dimple  
You got a face full of jelly like Smuckers  
I should have started PUSS, People Underminding  
Squeezin' Suckers  
So we can make it known that you're a disgrace  
It's '91, son, so do somethin' about your face  
Squirtin' glue out your face when goin' pop, pop pop  
Pop goes the pimple has gotta stop, stop stop  
Why not take your face by the section  
Rip the skin off and kill your complexion  
I guess it's the fact that you really like pushin'  
What used to be a face is now a pin cushion  
I got a clean face it doesn't have to be picked at  
And I can tell you I got nothin' on my back  
So to someone this may seem simple  
But to someone else it's the invasion of the pimples,  
the pimples

[chorus]

Pop pop goes the pimple, the pimple  
Pop pop goes the pimple, the pimple  
Pop pop goes the pimple, the pimple  
Pop goes the pimple 'cause the pimple goes pop  
(repeat)

Head flesh, turned into a red mess  
The second you squeezed it and I know it ain't painless  
But don't rely on skill that makes it spill in the sink  
Let no one forget about the Clearasil  
Now in '91 we got a lot of brands that lend a hand  
Clearin' up whatever they can  
Although the commercials are worse they won't leave  
any scars  
And you face won't look like the planet Mars  
Why do we get zits in one place  
Appearin' in a structure that looks like a constellation  
The Stridex gets put off until later  
Then boom you get a face full of craters

Heed the warning when it spills you'd better clean it up  
It splattered so much to get it all you'll need a moop  
Black and white heads together in the ripple  
It's the pimple, it's the pimple, pop goes the pimple

[chorus]

You found another pimple then you squeezed it, you  
squeezed it  
It splattered on the mirror then you squeezed it, you  
squeezed it  
Found one you couldn't pop and so you teased it, you  
teased it  
And now it hurts so bad that you appease it  
Bustin' zits you got pus but not clearer  
And hit the four corners of the mirror  
Everyone from Germans, to kids named Herman  
Doin' crazy damage to your upper epidermis  
Frustrated so you wanna just gang bang  
You ain't quick enough to catch up with the acne chain  
gang  
You don't believe this, you got another huge cyst  
You ever heard of a Dermatologist?  
A spelunker on your face could give tours  
Hey do, Devo Spice, rip your face, pop some of your  
Go for your own, stay away from mine  
Don't eat so much chocolate and maybe you'll find  
When these go away you may not get so many more  
Get in the car I'm gonna take you to a drug store  
You got pimples that spread like cancer  
Maybe plastic surgery is the answer  
But burstin' is the fate that you've chosen  
Blowin' up like a nuclear explosion  
Keep squeezin' if you wanna be a cripple  
No stoppin' 'cause pop goes the pimple

[chorus]

[chorus]
