

## **Michelle Shocked "My Little Sister"**

Visit "[My Little Sister](#)" on [MotoLyrics.com](https://MotoLyrics.com)

She's a rocker she takes after me  
And she's a roller runs in the family  
She's a rock and roll baby a real gone twister  
But I'm telling you mister  
Don't you mess around with my little sister

I don't know you but I know your kind  
I know I'm right, 'cause I can read your mind  
Now I know you think you can't resist her  
But I'm telling you mister  
Don't you mess around with my little sister

I promised the folks I would not keep her out late  
Because she's too young to party  
Too young to date  
So take your hands off her  
Find yourself another or you're  
Gonna have to answer to this big brother

And now I tell you, I ain't had fun all night  
'Cause all you fellas keep trying to treat her right  
She may blow your mind like an old transistor  
But I'm telling you mister  
Don't you mess around with my little sister  
Don't you mess around  
Don't you mess around  
Don't you mess around with my little sister now
