Have you ever been this low?
The taxis take you where you wanna go
Broken windows endless television shows
I haven't ever been so low

I am the one I sing the song
My lights are on but there's nobody home

So much happening today
A thousand people come and go and stay and fade
away
They draw the blinds and watch the show
Have you ever been so low?

I am the one I sing the song
My lights are on but there's nobody home

...nobody home
