She is a natural killer
She has a strange disguise
And she is cold as vanilla
She has that look in her eyes

She, she hasn't any feelings
And she got nothing on her mind
She is a natural killer
She is the thorn in your side

She is a natural killer
She has a strange disguise
She as sweet as vanilla
She has that look in her eyes

And she, she hasn't any feeling
And she got nothing on her mind
She is a natural killer
She is the thorn in your side

She, she hasn't any feeling
She got nothing on her mind
She is a natural killer
She is the thorn in your side

Thorn in your side
Thorn in your side
Thorn in your side
