### "She's Not Dead"

She'll come to her end locked in a car somewhere with  
exhaust in her hair  
What's she called? I dunno she's fucking with a slip of a  
man  
While the engine ran  
And he said "She's not dead she's gone away gone  
away" he said  
He said "She's not dead just go away go away" he said

In the car he couldn't afford they found his made up  
name on her ankle chain  
So don't call don't call her at home she's fucking with a  
slip of a man  
While the engine ran

And he said "She's not dead, she's gone away gone  
away" he said  
He said "She's not dead, she's gone away gone away"  
he said "Just gone away  
Gone away" he said  
She's gone away to someone else's bed
