Feel the dead inside

Another object of my art

Lunatic dreams become monotony chaos

A masterpiece of dark delight

My soul forever, my faith to be

Glorification of Blasphemy

Diabolical son of hells creation

Gathered in black, massacre in red

Gathering days of destruction

Death is the beginning, life the end

Infiltrate dimension, hallucination

In the center of the universe

Through the gate, wrath of time.

Behind the light, across the silence

Broken by the spell, the darkest night arise

Domains of eternal night, like an angel of disillusion

Sterile and black air, so let me enter

Father of my soul, perform my own death.

Christ you bastard, fuck my new born soul

All the stars they shine for me

All the cryptic winds of death

My rebirth is heavens end

Born lifeless, world of souls

Uncreate- between dimensions of time, through the
hell

Into my paradise of demonic incarnations

My soul is forever

I drink the spit the blood of Christ

Demons embrace me in my suffering paradise.
