Asphyxiate
Suffocate
To end your life
Why live dead
When you can end the pain?
Walk the path clean and straight
Feel the fire, choose your fate
You turned your back
Walked away
You turned your back
You will pay
Choose your fate
Suffocate
End your pain
Suffocate

Let this fucking nightmare end
Let this nightmare end

Open your eyes to what's going on around you
This system has failed you
You turned your back
Now it's my turn

I walk the path the mainstream fears
Walk the path
STRAIGHT EDGE
Take it to your grave
