Take a step into my world  
You won't like what you see  
Anger, hate, betrayal  
Nothing new to me  
Try to teach forgiveness  
Yet it never succeeds  
Talk about positivity  
Show me how positive you can be?  
If you break the bonds of friendship  
It won't mean shit to me  
You will choke on the words you preach  
Be a hard lesson learned  
One you'll need to see  
Always pointing fingers  
Who's right or wrong?  
I've got news for you, man  
I'm the one who's got it all figured out  
I've got this strange feeling coming over me  
It hurts, it kills, it stings  
But I'm still smiling

Put up or shut up  
Your sincerity  
You can't fight what you can't see  
Tears of blood run down my face  
Each time I blink  
A drop steals a breath from my life

I've had this feeling for sometime  
You seem to care less every time

I've got this strange feeling coming over me  
It hurts, it kills, it stings  
But I'm still smiling

Step up to the plate, man  
What have you got to lose?  
What the fuck did you expect?  
You never meant shit to me
