"No Purpose In Life"

Hatred has consumed me, my black heart's full of
rage. Empty inside - this life is fucking pain. The
World is breeding such despair. How can this life exist?
All should pass, none deserve this. We kill
Ourselves, but never fast enough. No purpose in life -
no mercy in life. Honoring no god, no creed.
Your false prophets will not save, save me.
Condemning all of us - I will hurt mankind. Sights of
Death will fill our eyes, you who believe will die. We
know there is no heaven, no hell. No god would
Let us live, we spread like cancer. Not afraid of death, I
welcome it. Awaiting my destruction,
Condemning all of us - I will hurt mankind.
