"Backdown"

Visit "[Backdown](#)" on MotoLyrics.com

I like my man rough.
I like my man tough.
But he's gotta be smooth,
when he's givin' me love.

I like my man clean,
like the court of his jeans.
It's like the long way,
take a minute for me.
(Take a minute for me)

He's gotta smell good.
Treat me like a man should.
Keep his hand trim low,
he's a friend of my soul.

He kiss me secure.
Makes me feel safe.
And if you ever did touch me,
(And if you ever did touch me)
I have to put you in a place.
(I have to put you in a place)

Cause my Baby don't,
backdown.
My Baby don't,
backdown.
Cause he's alright.
Because he's alright.
My Baby don't,
backdown.
Don't he never,
backdown.
Cause he's alright.
Because he's alright.

I like my man sexy.
I like my man ?
He knows what I want,
he's the ? of my ?

I like my man patient.
And his body real tight.
He never keeps me waiting,
that's just what I like.

See these boys don't look good,
cause I need a real man.
Someone that can keep me,
in the palm of his hand.

He's gotta treat me right,
never do me wrong.
Better know how to please me,
and turn me on.

I know I'll never,
backdown.
My Baby never,
backdown.
Cause he's alright.
Because he's alright.
No my Baby don't,
backdown.
My Baby don't,
backdown.
Cause he's alright.
Because he's alright.

I like my man cool.
Much cooler than Ice.
And if I did need him,
I wouldn't have to blink twice.

He gives me kisses by the hour,
when he brings me flowers.
I've never felt so sweet,
when he's around me.

He's got a lot,
he's got a lot,
he's got a lot.

He makes me smile,
(Just how to make me laugh)
just how to make me laugh.
He never moves too slow,
but doesn't move too fast.

He's the love of my life.
He's all that I need.
When he's with his friends,

he's proud about me.

Cause my Baby never,
backdown.

No my Baby don't,
backdown.

Because he's alright.

Because he's alright.

No my Baby don't,
backdown.

My Baby don't,
backdown.

Cause he's alright.

Because he's alright.

Ooh, yeeah.

Backdown. Backdown. Backdown. Now.

Backdown. Backdown. Backdown. Now.

Backdown. Backdown. Backdown. Now.

Backdown. Backdown. Backdown. Now.

Backdown. Backdown. Backdown. Now.

Backdown. Backdown. Backdown. Now.

Backdown. Backdown. Backdown. Now.

Backdown. Backdown. Backdown. Now.
