I'm looking in the mirror and I'm thinking I like what I see, big big lights shining bright like I'm on the TV, my heart pumps as the bass drum thumps, you've got a move when the base boy jumps, something's going on and I think its going on right now,

All the boys and the girls, they've got it going on,
When the beat kicks in you feel it in your bones,
When the bass thumb crack and the needle drops,
You can't turn back and you just can't stop,
All the boys and the girls (no you just can't stop) all the boys and the girls (no you just can't stop) all the boys and the girls

I can see the silhouettes dancing up against the wall, It sure feels good, feels good, yeah were guna lose control, Turn it on, make it strong, a good beat never hurt no one, kicking up the dirt and were making every move we know,

All the boys and the girls (no you just can't stop) all the boys and the girls (no you just can't stop) all the boys and the girls (no you just can't stop) all the boys and the girls (no you just can't stop)

Woohoooo woohooo Baby don't stop, Woohoooo woohooo keep the vibe up, Woohoooo woohooo baby don't stop, Woohoooo woohooo keep the vibe up

Turn it on, make it strong, a good beat never hurt no one

All the boys and the girls, they've got it going on,
When the beat kicks in you feel it in your bones,
When the bass drum cracks and the needle drops,
You can't turn back and you just can't stop,
All the boys and the girls (no you just can't stop) all the boys and the girls (no you just can't stop) all the boys and the girls
