### "Forever W"

Visit "[Forever W](#)" on MotoLyrics.com

sometimes I feel I want to fly away  
with you my darling I just want to stay  
with you I love forward to better days  
to be forever with you

I'm looking out up on a summers day  
I prayed the god it will remade this way  
with you my heart will always be so true  
I want forever with you  
I want forever with you

when I look into your eyes I see  
the love you feel for me  
lock me save in your heart my baby  
you have got the key  
each day is better than the one before  
so stay forever more

such a perfect match I can't let go  
you are my angel I just can't say no  
I want to share with you my love so true  
I'll be forever with you  
I'll be forever with you  
I'll be forever with you
