Hot under the collar  
I bet you wanna take a little something off  
So strip it down boy  
You like the way my hips  
They move up and down and dip  
Got moisture on your lips  
So strip it down boy

I won't be offended  
If I was the one that had said that  
You know that I'm down with that  
I'm calling you, you're invited  
Boy this party's bout to get private  
I've got you hooked that's a fact

Oooh  
The strobe light, it's so bright  
Let's get under  
Oooh  
Like starlight, it's so bright  
Strip it down now boy

Coz I can see you getting hot under the collar  
I bet you wanna take a little something off  
So strip it down boy  
You like the way my hips  
They move up and down and dip  
If you wanna get with this  
Strip it down boy

Watch me now baby  
I'm gonna keep it real sexy  
You won't know how to react  
And boy you know where it's leading  
Right into the gun and I'm freezing  
I'm tempting you that's a fact

Oooh  
The strobe light, it's so bright  
Let's get under  
Oooh

Like starlight, it's so bright  
Strip it down now boy

Keep your eyes on me  
Keep imagining  
Keep your eyes on me  
Keep imagining  
Now it's time I head my way

Ooooh  
The strobe light, it's so bright  
Let's get under  
Ooooh  
Like starlight, it's so bright  
Strip it down now boy x2

Coz I can see you getting hot under the collar  
I bet you wanna take a little something off  
So strip it down boy  
You like the way my hips  
They move up and down and dip  
If you wanna get with this  
Strip it down boy

Strip it down boy
