"Never Gonna Dance Again"

Visit "[Never Gonna Dance Again](#)" on MotoLyrics.com

Circles on the floor
I'm getting down, low
But things ain't right, you're gone
I'm losing ground, no

Do you remember when your head was mine?
It's all I ever think when it comes to you and I
No, I can't feel right, how we couldn't seal the deal
The rhythm kept us going, the only thing I feel

And so I'm never gonna dance again
I lost my rhythm when you said it's over
And as the final record starts to fade
I feel the dance floor turning colder

And so I'm never gonna dance again
'Cause all the music in my world has faded
Oh no, it's never gonna be the same
I guess our moves just never made it

From the start, a work of art
A perfect picture painting that I stored in my heart
We weren't so bright, you know we couldn't get it right
Our bodies intertwined, now I can't get you out my
mind

As we dance you know our feelings show
You ought to know you got me
As we danced it flowed, my heart exposed
Now I'm alone, you lost me baby

And so I'm never gonna dance again
I lost my rhythm when you said it's over
And as the final record starts to play
I feel the dance floor turning colder

And so I'm never gonna dance again
'Cause all the music in my world has faded
Oh no, it's never gonna be the same
I guess our moves just never made it

Oh yeah, I'm getting down but the rhythm's all wrong

The record goes around, they're playing our song
I get into the groove but it's giving me pain
There's nothing you can do for me Mr. DJ

And so I'm never gonna dance again
I lost my rhythm when you said it's over
And as the final record starts to play
I feel the dance floor turning colder

And so I'm never gonna dance again
'Cause all the music in my world has faded
Oh no, it's never gonna be the same
I guess our moves just never made it

It's over, it's over
And so I'm never gonna dance again
It's over, it's over
And so I'm never gonna dance again

It's over, it's over
And so I'm never gonna dance again
It's over, it's over
And so I'm never gonna dance again

It's over, it's over
Never gonna dance again
It's over
