(Carl Thomas)

Now that it's over

There's no more use for guns and wars

Costs me a lifetime, just to gain this life's reward

They say streets of gold

Can you imagine somewhere where life will never
ends?

No one ever grows old

Oh my brother, please come with me

It's what I live for

A place where love will never cease

Willing to die for

Heaven is where I want to be

(Michelle)

There are instructions that we must follow to a t

In order to reach them

Heaven is where I want to be

They say streets of gold

Can you imagine somewhere where life will never
ends?

No one ever grows old

Oh my brother, please come with me

It's what I live for

A place where love will never cease

Willing to die for

Heaven is where I want to be

No more night

There is a place where there'll be no more crying, yeah

And He is Life

Counting those days when we meet in the place

Willing to die for

(Ooh yeah)

It's what I lived for

A place where love will never cease

Willing to die for
Heaven is where I want to be
(I want to be)

It's what I lived for
A place where love will never cease
Willing to die for
Heaven is where I want to be
(I want to be)

It's what I lived for
A place where love will never cease
Willing to die for
Heaven is where I want to be
(I want to be)

It's what I lived for
A place where love will never cease
Willing to die for
Heaven is where I want to be
(I want to be)
