One shot was all it took for love to take me out  
Pistol is loaded, nowhere for me to hide  
Hand on the trigger, aiming for your bullseye.  
You're automatic... to kill outside.

Bridge:

But I remember as a flash  
And looking down a mirror glass,  
One shot straight to the heart,  
No escaping, no attack  
They say your aim,  
You had a perfect shot,  
Make me only with your love gun.

Chorus:

You shot me with your love gun,  
You don't play bad, won't last long.  
Yeah, you shot me with your love gun,  
With your love gun!

Try to block... in a real bullet proof vest,  
Caught me... it went through my head,  
Bullet so explosive, you shot me down to the nerve  
Shot gun like...  
I'm caught up in your massacre.

But I remember as a flash  
And looking down a mirror glass,  
One shot straight to the heart,  
No escaping no attack  
They say your aim,  
You had a perfect shot,  
Make me only with your love gun.

Chorus:

You shot me with your love gun,  
You don't play bad, won't last long.  
You shot me with your love gun,  
With your love gun!
