Let it go, let it go
Let the teardrops roll
Let it flow, let it flow
To the waterfall
Go, when you're low
To the land of hope
Where it's a holiday

You can stay, you can stay
On the ocean's shore
You can breathe in the seas
When the desert calls
Take all the rain
Let the sunlight face you
When your life is gray

It's a lovely day
It's a lovely day
Heaven on the inside
Your soul is going to fly away

Let it go, let it go
In your hands you hold
Every load, every load
On the shoulder of tomorrow
Say you can say
On the wings of grace
It will lift of faith

It's a lovely day
It's a lovely day
Heaven on the inside
Your soul is going to fly away

I've got a pocket full of hope to hold
I've got a remedy to lift that load
This melody is meant to show
It's a lovely day
