(Sweet Soca Music)

Soca what we love and what we need.  
Sweet Soca is what the whole world need.  
It's sellin' out fast, I just can't believe.  
I soca live, England start grief! Again.

Soca what we love and what we need.  
Sweet Soca is what the whole world need.  
It's sellin' out fast, I just can't believe.  
I soca live,

Trinidad start grief because uh  
Them want to get high tonight  
Wave uh the flags up in uh the air  
All night an' uh free up 'em body  
And do the things that they like an' uh,

She call my Trinidad, to kill 'im with the whine  
She whine so unique, some boy can't keep in time.  
She acts like a muffy, well humble and kind,  
Form one line, and come behind  
Me, said the way you move your body girl,  
Move you is slime,  
In this sweet soca music, yeah you look fine  
With your flag up in uh the air  
One more time, make me kill you with the whine  
Kill you with whine. Again.
