{We have a strange situation here  
Oh yea sir, we have a problem in the ward 349  
We cannot block out, respond to person in the area  
He's brought in a dog and he's, er, attempting to kill  
himself  
[Incomprehensible]  
Sir, please step away from the car [Incomprehensible]}

Look around  
Help me out  
Breakin' up  
Breakin' down

Take him out and leave him on a mission  
Take him out and leave him on a shelf  
Take him out and leave him on a mission  
Take him out and leave him by himself

All around  
In my sight  
Back to back  
Side to side

All around  
In my sight  
Back to back  
Side to side

Going down  
Half the time  
Close my eyes  
There's no sound

Take him out and leave him on a mission  
Take him out and leave him on a shelf  
Take him out and leave him on a mission  
Take him out and leave him by himself

All around  
In my sight  
Back to back  
Side to side

All around  
In my sight  
Back to back  
Side to side, yea

{We have the suspect on the white wall  
We are compelled to sever  
[Incomprehensible]  
Aw, put pressure to cut off}

Take me up  
Help me out  
Watch this rope  
Going down

Take him out and leave him on a mission  
Take him out and leave him on a shelf  
Take him out and leave him on a mission  
Take him out and leave him by himself

All around  
In my sight  
Back to back  
Side to side

All around  
In my sight  
Back to back  
Side to side

All around  
(All around)  
In my sight  
(In my sight)  
Back to back  
(In my sight)  
Side to side  
(Side to side)

All around  
(All around)  
In my site  
(In my site)  
Back to back  
(Back to back)  
Side to side  
(Side to side)
