A thousand U.S dollars
He's on a mountain of speed
No need to know my whereabouts
'Cause you get what you need

I love it when you come around
I love it when you find me gone
No time to think about can't save us from a sword
I love it when you come around
I love it when you find me gone
Well tell you damn right so don't tell me that I'm wrong

Tap yeah, twist yeah, snap yeah
Tap yeah, twist yeah, snap yeah

I see a nation of zero's
You bring us to our knees
And now you killed all our hero's
You'll get the dent you can see

I love it when you come around
I love it when you find me gone
No time for cuffs tonight 'cause I'm gonna wake up to
the sun
I love it when you come around
I love it when you find me gone
In a car without headlights let power lead us on

Come on
Tap yeah, twist yeah, snap yeah
Tap yeah, twist yeah, snap yeah

I'm gonna drink tonight, lets go out drinkin'
We're gonna get it right, no time for thinkin'
We're gonna drink tonight, lets go out drinkin'
Spend all our cash tonight, lets go out drinkin'

Tap, twist, snap

So you can call me a failure
Then you know I'm a freak
But now it's time for some payback

Raising up with the weak

I love it when you come around
I love it when you find me gone
No time to think alike can't save us from a sun
I love it when you come around
I love it when you find me gone
Well tell you damn right so do tell me that I'm wrong

Come on now tap yeah, twist yeah, snap yeah
Snap yeah, twist yeah, snap yeah

I'm gonna drink tonight, lets go out drinkin'
We're gonna get it right, no time for thinkin'
We're gonna drink tonight, lets go out drinkin'
Spend all our cash tonight, no time to think

Come on
Tap, twist, snap
Tap, twist, snap
Tap, twist, snap
Tap, twist, snap
