Bj?rk  
I admit I like you for your brains  
But you won't try, there is no fun in it  
You know what life is all about  
But haven't got guts to enjoy it  
Come on, I'll make you wet  
Bubbles, foam of intelligence

Einar  
'cos you just want me for  
My little brains, I don't know  
What I am doing 'cos  
I just know you want  
Me for my little brain  
'cos I am your little brain  
You are, you are just  
You are just trying me

Bj?rk  
You're stuck in your civilised home  
Sulking over other's stupidity  
You're awfully clever, but dry  
I'll get you soaked to the skin

Einar  
Just try me out  
For strength and I don't know  
What you want really from me  
'cos I am just trying  
You want me for my juicy wits  
'cos you don't know what I am

Bj?rk  
You know what life is all about  
But haven't got guts to enjoy  
Juicy wits, that's what you need  
Juicy wits..

Einar  
You only want me for my  
Little things called brains

But I know that I can  
Recage? you all over the party  
But you know what I am  
You just want something  
Different, but you must get  
My juicy, my juicy wit  
'cos my wit is...

Bj?rk  
There's only one way  
Come on, jump in  
And get what's around you  
There's only one, only one life

Bj?rk  
Bubbles, bubbles,  
Foam of intelligence  
Bubbles, bubbles..
