Warm breeze blowing, long dirt road  
First time that I saw him was such a long time ago  
I was sixteen going on seventeen  
Blue bonnet Texas queen fell in love with a rodeo king  
Down in Sugarland

Drive in movies, hot summer nights  
First time that I kissed him made the world seem right  
I was city bound couldn't wait to get outta this town  
Suddenly everything just changed  
Something told me I just might stay  
Down in sugarland

Down in sugarland doing the best we can  
Holding hands staying up all night  
Swinging stars from satelittes  
Down in sugarland doing the best we can  
Falling in love again down in sugarland

Corn fields swaying, clothes on the line  
Tumbleweed is a turning like the hands of time  
When I was sixteen going on seventeen  
I didn't know much of anything  
Living the American dream down in sugarland

And I see the small town smile in your eyes  
Shining like a diamond in the sky  
The sweet skies, under the sweet sky

Sweet skies of sugarland doing the best we can  
Holding hands staying up all night  
Swinging stars from satelittes oh down in sugarland  
Doing the best we can  
Falling in love again down in sugarland

Whoa, whoa, oh, sugarland  
Sweet skies of sugarland, sugarland  
(Sugarland) warm breeze blowing  
Long dirt road  
Sugarland yeah yeah yeah
