I gotta gotta take a trip, gotta take a trip out of this  
place

I gotta gotta get away, get away from the human race  
I don't know what I'll see, don't even know what I'll find  
I don't know what to pack, never been to a trip at the  
mind

Trip at the brain. Trip at the brain. Trip at the brain  
Do you know what I'm saying?  
Trip at the brain. Trip at the brain. Trip at the brain  
Well I'm going insane

I took a wrong turn and ended up at my heart  
It could barely even pump no blood it was so thrashed  
and  
Torn apart  
Thank it for working overtime in pain and misery  
Then I set back on the trail, headed for my destiny

Fly with me  
Flying free

Tripping  
You must be tripping  
Trip, trip, tripping  
Ya ya ya ya you're tripping

I cannot stop this trip, I forgot to pack the brakes  
Crashed straight into a concrete wall of my mistakes  
Ended up in a cemetery of a thousand wasted days  
But that's alright with me, cause that's where most of  
my  
Memories lay
