Oh yea, back again
Hope you've enjoyed our little excursions, huh
Tippin', toein' through the mind of a motherfucker
That need's a little fuckin' stompin' on, huh, yea
But don't take it wrong
See, we ain't tryin' to tell you how to think
We're just tryin' to get you to think

And we ain't tryin' to control nobody
We want the people to be in control
To know who they are, what they want to be
Yea, and question authority, what the fuck?
But not for the sake of argument
But because you took the time to analyze it
And you found a better fuckin' way
Not just a fuckin' excuse to complain

And beware of people who try to use you as
A statistic to back up their claims of power
That use you simply as a vehicle to get themselves
Where they want to
With no reference to your best interest except for their
disclaimer
That their best interest is your best interest
And remember
Cool is only three letters away from fool
