Oh yea, know that shit. Sounds so good
I wanna... right along. Yea this is K-Sui,
Cyclo Miko here, giving you the easy
muthafuck'n listening sounds for the hard
of muthafuck'n hearing. Yea, busting out on
a whole new perspective to lock you upside
your head. Get your mind working.
Cause you know it ain't working like it should be.
It's time to think... not think like you think

you think... that ain't thinking, that's just
justifying your inability to accomplish the things
that you're not willing to work for.
So right now time to dig into fuck'n trench.
Get a little cyclo. Cause you gotta fuck'n be crazy
to believe in yourself! So what anyone else says...
fuck it! I don't give a fuck!
