I see destruction as it rages through your veins  
I see depression as it fills your heart with pain  
I see the cure you found, your artificial peace  
I see your body rot, your solution now has it's feast

And now I look, I look in your eyes  
Looking in your eyes  
Looking in your eyes  
Looking in your eyes  
Looking in your eyes

What I see in your eyes  
I can see, they tell no lies  
Looking in your eyes

I see salvation oh so close, but yet so far  
I see the gilmmering of the holy star

I see your future, it's a nightmare and I lie  
But you refused my help, now I have no more strength  
to try

Now I see, I see the lies  
Looking in your eyes  
In your eyes I see the lies

What I see in your eyes  
I can see, you tell no lies  
Looking in your eyes

Looking through my eyes

Well I would die for you  
I've died enough now I'm through  
But one day you will see  
What won't but what should B-T-F. Please stay.
