Free--can anyone show me the way to free?  
Free--does anyone know which way is to free?

I aint here to dough you, just heard so much about you  
Wont you save a place for me  
I hope you'll let me choose you  
I never would abuse you  
Please accept my sincerity

Free--I want you  
Free--I need you  
Free--which way's it to free?  
Free--I want to hold you  
Free--I want to know you  
Free--Can you send me to free

Although some may deny you  
I'd really love to try you  
I need this opportunity  
My past has been divided  
My future, I'll rewrite it  
Change my life if it need to be

Which way's it to free?  
Which way's it to free?

Free--Can anyone show me the way to free?  
Free--Does anyone know which way is to free?

Gimme some free...Which way's it to  
Gimme some free...Which way's it to
