Strange cold atmosphere  
In the dimension of the dead  
Am I dead or alive?  
I find no answer

My soul is awake  
But my body is dead  
A dark soul is what I am  
In the dimension of the dead

Step inside death  
Follow me  
Into the dimension  
Dimension of death

Will I find the answer?  
How should I know?  
If I am alive or death  
In this strange dimension

Nothing is as before  
Everything is silence  
My soul is awake, and my body is dead  
In the dimension of death
