Crush the weak, show your wrath  
Kill with power, execute with pride  
Evil force, force of might  
Slaughter what is good, crush the slaves of god  
For the lord of darkness we fight  
With honour we slaughter for Lucifer  
Those sacrifices makes us hunger for more  
Our evil souls fills with joy

Lord of abyss, crush the weak  
Lord of abyss, Hail!

Crush love and holiness  
See the truth and obey the lord of darkness  
You're all going to die in the unholy war  
And the only winner is death  
Crush the weak, show your wrath  
Kill with power, execute with pride  
Evil force, force of might  
Slaughter what is good, crush the slaves of god

Lord of abyss, crush the weak  
Lord of abyss, Hail!
