War is here  
Tranquility is gone  
Tanks invades the ground  
People executed

Fighting for their lives  
Nowhere to hide  
Merciless soldiers  
Kill those innocent people

Outbreak of war  
Tanks invades the ground  
Outbreak of war  
Kill

With pride and honour  
They fight for their country  
Risking their lives  
For taking others

Screams and torture  
Corpses everywhere  
War is here  
Tranquility is gone

Outbreak of war  
Tanks invades the ground  
Outbreak of war  
Kill
