

## Suicide

### "Worms Stuck On A Sphere"

Visit "[Worms Stuck On A Sphere](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I stand here watching your every move

Wish I was millions of miles away

Experiment our sacred species

That's built to demolish

Create, kill

Build, ruin

Attack, defend

Progress, regress

Poison, cure

Reign, obey

Preach, seduce

Mercy, torture

Unite, divide

Believe, deny

Produce, consume

Scare, fear

Trying to realize

Miserable creatures' aim

Question the minds of

Saddled freaks bound to desperation

Worms stuck on a sphere

Neither will win nor survive  
Divided by colors and wealth  
One's death another's triumph  
Atrocity that confused my mind  
A life style for most of us  
I got used to see bloodbath  
Believe no one will survive  
Blood thirsty carnivores wearing uniforms  
Spatter blood on everyone's future  
Can you purify by acting the innocent  
They spill blood you lick their boots  
Trying to realize  
Miserable creatures' aim  
Question the minds of  
Saddled freaks bound desperation  
Atrocity that confused my mind  
A life style for most of us  
I got used to see bloodbaths  
Believe no one will survive  
I stand here watching your every move  
Wish I was millions of miles away  
Experiment our species  
That's built to demolish.
