I've been thinking of you  
Where have you been  
All this time?  
I want to see your face again

At night I can't sleep  
'Cause I remember the day  
When you went away

I've been writing you these letters  
But I don't know where I have to send them  
Please call me and tell me where to find you  
.....

It's been two whole months  
And I haven't recieve any new from you  
It's been two whole months  
And I'm bleeding of love  
...

I've been writing you these letters  
But I don't know where I have to send them  
Please call me and tell me where to find you
