One more time Somebodies gotta kill

One more time Is time standing
One more time Another suicide
One more time Another kid has died

[Chorus:]

And one more time I think
I'm losing my mind [4x]

One more time Another broken home
One more time A cold heart of stone

One more time Are children born to die

One more time Is it any wonder why

[Chorus 2x]

Can you tell me why this is they're just kids

One more time Power's always misused
One more time A child's been abused
One more time A cry that goes unheard

One more time I can only think the worst

[Chorus 2x]
