We're dying, We're dying out.

Dying art, dying sea,
Dying you, dying me,
Dying hearts, dying minds,
Dying sucks, dying times.

Crash course in commercialism,
Dumb it down.
Crash course crashing head on,
Spiraling down. (down, right now, watch out)
After all, it's just fashion.
After all, it's just a trend.
Come on and let's kill it together,
Let's make the threat extinct.
Let's let those fuckers win.
This is not a commodity.

We're dying, We're dying out.

Exploit our culture and you buy into it.
