

Suicide Machines

"Split The Time"

Visit "[Split The Time](#)" on MotoLyrics.com

What were you doing when you said the things you did
What were you saying when you said the things you
Said no I can't comprehend anything you're saying I
Don't understand this fucked up game you're playing
OK we've come full circle and are you willing to stand
By what you said 'cause I'm not willing to go around
and
Around with you any longer

[Chorus:]

It's time to split the time It's time to split
The time It's time to split the time between you and
Me can't you see

If we can just agree to disagree instead of fighting
All the time without ever understanding I never have
A clue what you're ever fucking thinking you don't
Make sense you talking nonsense all day

[Chorus 2x]

I know we'll get by this time I know we'll get by
Everything is gonna be alright it's gonna be OK [2x]

[Chorus 2x]
