[Chorus:]

Hey you know that things can't stay the same  
Hey don't be afraid to make the change [2x]

Everyone's telling you you've gotta stand tall  
Just stick to what you know and you'll  
Never fall I guess that I can say there's some truth  
In what they're saying have no fear move on and  
Stop delaying

[Chorus]

As much as we'd like things to always stay the same  
There comes a time in everyone's life when we feel  
Strange doing the same old things again the same  
Way we've gotta break away to something new we'll  
Do it someday

[Chorus 2x]

As time goes on everything and everyone changes

[Chorus 4x]
