"Your Silence"

War for profit can nothing stop it

Punish those unloyal war for oil
We dominate we obliterate

World economics and other countries
U.S. policy hands in everything

Our intervention ends in destruction

Collateral damage the pack is rabid

Foaming at the mouth awaiting the feast

[Chorus:]
Your Silence [2x]

Equals your death

War for peace it doesn't fool me

The guise of freedom blindly leading them

Foolish sense of pride for the rich you die

Media whitewash blood is the cost
The innocent dead use your fucking head

Protest and survive don't believe their lies

A million reasons to believe 'em

A million reasons A million reasons

[Chorus]

Equals Your Death [8x]

You said politics don't concern me and that's
Just fine so sing along to the radio's love song

And when they reinstate the draft you'll be the

First to go you're 23 so when you're in Iraq
Staring into the eyes of the man who's the enemy
With skud missiles streaming over your head
remember

When you said "Politics don't concern me"

What you gonna do it's either gonna be him or
You what you gonna do you're just a pawn you're

Just a tool what you gonna do gonna die at the

Age of 23 what you gonna do still say

"It Doesn't Concern me"
The world is spinning out of control [3x]

It's all about money [4x]

[Chorus]
