Chorus:

She's pulling me back, again
Darling, don't let her win
Take me in your arms, right now
Hold me tight.

She's standing outside, again
She's wanting to come back in
So if you've ever loved
Love me tonight.

I can feel her reaching
In the night
So lay a little closer
By my side.

Let me take my weakness
And love it out on you
Right now, I need your love
To hold on to.

Chorus:

She's pulling me back, again
Darling, don't let her win
Take me in your arms, right now
And hold me tight.

She's standing outside, again
She's wanting to come back in
So if you've ever loved
Love me tonight.

She's pulling me back, again...
