"Total Love"

Give me the simple life
A little paradise
Not that complicated anyway
I can see it in your eyes
Time to realise
What we got is total love
It's total love
You can't find it everywhere
Cause it's true love
The kind of love we share
Two worlds, me and you
It's total love
When my world is cold
You come to warm my soul
What's that something that you give to me
Give me sanity
Easy now to see
What we got is total love
It's only natural, only fair
Feeling I need love to know you care
Like the air we breathe in
All that we need is total love
It's total love
Makin' dreams come true
