

Sum 41 "Always"

Visit "[Always](#)" on MotoLyrics.com

Always, the whole way through
I'll stay true

Calling your name out
If you could only hear me now
Wish I had never said so loud
The choice I would never be without

I'll be with you always (Always)
Know that all these words are...
Know that i can feel
Something I never thought was real
I'll be with you always (Always)
Know that all these words are true

Calling your name out
If you could only hear me now
Wish I had never said so loud
The choice I would never be without

I'll be with you always (Always)
Know that all these words are...
Know that i can feel
Something I never thought was real
I'll be with you always (Always)
Know that all these words are true

If you stay then I won't go
If you go, I'll always be there
I don't care
All I know
If you stay then I won't go
If you go, I'll always be there
I'll be there, I don't care, I don't care
Cause always, I know
