I need this to get me through  
Can't resist don't want to  
Believe it I know it's true  
Can't beat it don't want to try

(A perfect hell)  
There's more to me than you ever will know  
Down here where the rest of us fell  
Waste away nothing left to show  
While I'm in the perfect hell

Obsession has begun  
Possessed by destruction  
How did I get so low?  
Believe me no one knows  
Sometimes I can't hold on  
And no one can help me

Now it's got a hold on me  
(Hold on me)  
I don't think I can make it through this  
Now it's got a hold on me  
(Hold on me)  
The less I do the more it makes no sense

I'm walking pollution  
Is drained by delusions  
On the verge of destruction  
I cave into abduction  
Thin blood I'm bleeding  
Pulse won't stop racing  
Just as my heart explodes

No chance that I could win  
Too hard to not give in  
I just don't feel the same  
Cause I'm the one to blame  
Sometimes I can't hold on  
And no one can help me

Now it's got a hold on me  
(Hold on me)

I don't think I can make it through this  
Now it's got a hold on me  
(Hold on me)  
Less I do the more it makes no sense

I need this to be myself  
It feels like I need some help  
It's too late to save myself  
Or it's just in my head

Now it's got a hold on me  
(Hold on me)  
I don't think I can make it through this  
Now it's got a hold on me  
(Hold on me)  
The less I do the more it makes no sense

Now it's got a hold on me  
(Hold on me)  
I don't think I can make it through this  
Now it's got a hold on me  
(Hold on me)  
The less I do the more it makes no sense
