It's hard enough to even fake a smile
Disillusion - I'm in denial
There's something missing
'Cause I can't feel a thing
I'm desensitized!

You can fake this and
I can't take anymore
I'm numb, so dumb
I can't ignore..

You can fake this and
I can't take anymore
I'm numb, so dumb
I can't ignore.. anymore!

All this confusion is running
deep inside my head.
How long can I keep this up
Before I end up dead!?

I can't believe that it could come to this
It's only feelings though I can't resist
I'm falling deeper in denial but I still try to
Believe in something

You can fake this and
I can't take anymore
I'm numb, so dumb
I can't ignore..

You can fake this and
I can't take anymore
I'm numb, so dumb
I can't ignore.. anymore!

Anymore!
Anymore!
Anymore!
