

Sum 41 "So Long Goodbye"

Time passes by, direction unknown
You've left us now but we're not alone
Before you know it your cup's overflown
You measured no one that I've ever known

And it's quite alright and goodbye for now
Just look up to the stars and believe who you are
'Cause it's quite alright and so long, goodbye

We always knew that it'd come to this
It's times like these I forget what I miss
Matters of heart are hard to address
Especially when yours is full of emptiness
And it's quite alright and goodbye for now
Just look up to the stars and believe who you are
'Cause it's quite alright and so long, goodbye

Well, time passes by, direction unknown
You've left us now but we're not alone
Before you know it your cup's overflown
You measured no one that I've ever known

And it's quite alright and goodbye for now
Just look up to the stars and believe who you are
'Cause it's quite alright and so long, goodbye
