

Sum 41 "This Is Goodbye"

Take a look around you, consequence surrounds you
I would cross my heart and hope to die
You should thank your lucky stars and count your
fading scars
'Cause no one said you had to live a lie

Too late, my friend, it's over, memories broken
Nice to know you, guess that means this is goodbye

Days will come and go by, you will never know why
You're the victim of your own denial
You took the vow of contradiction bound by lies and
fiction
Holding on to nothing all the while

Too late my friend, it's over, memories broken
Nice to know you, guess that means this is goodbye

This is goodbye, so nice to know ya
Time has come and gone, this is goodbye
This is goodbye, so nice to know ya
Time has come and gone, this is goodbye
