No brains by sum 41
can't step in my way
head first in your love & dismay
its like beating the dead
it can't stop going out of my head
whatever this could be i'd never know,
i never said it'd be the end all to be all

i hate you today,
i can't find a way,
don't drag me down now,

[Chorus]
goodbye, i've had enough frustration
i won't get stuck, goodbye,
this dead end situation,
it's just not worth my time

it's no better today,
i never thought it would end up this way,
you got somethin' to say?
don't wanna hear it if it gets in my way
(halt)this confusion, wondering, so overwhelmed,
(halt) this illusion seems so clear,
(cant) find conclusion dissapointing evolution
not (all) things are what they appear

so whats the point of this hell?
i know you too well we're running backwards,

[Chorus]
bomb waiting so frustrating,
im so sick of,
all this tension not to mention,
im so sick of,
can't take it,
we won't make it,
just save yourself this trouble,
get down and pray for yourself cause I'm just fine

[Guitar Solo]

you speak for all of us when,
you can be heard
i'll bet you haven't listened to not one word
you speak for all of us when,
you can't be heard
i'll bet you haven't listened to not one word
[Chorus]
bomb waiting so frustrating,
im so sick of,
all this tension not to mention,
im so sick of, sick of you!
