{VERSE 1}

Around the world, comets hit the new machines of man.

But their all right the two can light together...
the sky...a million waves of light.

{VERSE 2}

Release the sun, to untie the moon into the air
Never fear the two will fall together...tonight...
their lov'in never dies

{CHORUS}

Cuz there's no suicide, just a pretty feel'in.

{VERSE 3}

I'm into you, pretty girl you make it hard to die
Touch my hand and we can stand forever...in love...you
and me above

{CHORUS}

Cuz there's no suicide, just a pretty feel'in
Don't stop believ'in, there's no suicide.

{VERSE 4}

Shooting stars from coast to coast
light the stars we loathe the most
And realize it's in our hands.
Send the lights on a fading sound
Send the message through the clouds
We'll never die, you're beautiful, believe me!
There's no suicide, just a pretty feel'in
Oh don't doubt your feel'ins
There's no, there's no
There's no suicide, there's no suicide,
there's no suicide, just a pretty feel'in
So don't doubt your feel'ins
Don't doubt your feel'ins
Don't doubt your feel'ins
Don't doubt your feel'ins
